My Beloved Friend

I have but a moment to write — Our mutual friends Chandler & Hannah M Darlington in company with Sidney Perie & Alice Jackson (the former Clk of our Mo Meeting) & Progressive Friends) are all going on a Tour Eastward and will set off in a day or two They will visit Boston — and I feel an unusual desire to have them make a call at thy house. C is a fine Scholar but then will remember him kind & lovingly he and his dear Hannah received them & thy beloved Mo — I feel a special desire for them to meet some of your good folks during their very brief stay — Of course they will want to look around the city and I believe they have no personal friends there — I write & suggest to them to call at the A. S. Office & leave word where they will be stopping —

Excuse this freedom — Do the same to me in return — I know you are often over done with visiting It must be so, yet My desire in this case to have them see you at your own home has induced me to attend to My instructions My dear wife is quite unwell

Yours truly & lovingly

I. T. Hopper
